ELECTRICITY SWITCHER Session

Same power... less cost!

Save Money on Your Electricity Bills!

WEDNESDAY 11TH NOVEMBER AT 7.30PM

CONNOLLY NATIONAL SCHOOL

AT THIS SESSION YOU WILL:

- Understand your electricity usage and bills
- Choose a new electricity supplier
- Make the switch on the night (if you wish)
- Start saving money straight away!

A simple switch could mean a big saving!

TO MAKE THE SWITCH, YOU'LL NEED:

- MPRN
- Current meter reading
- IBAN for your bank account

Event run by:

Connolly Tidy Village

CLARE ENERGY AGENCY

Clare Local Development Company

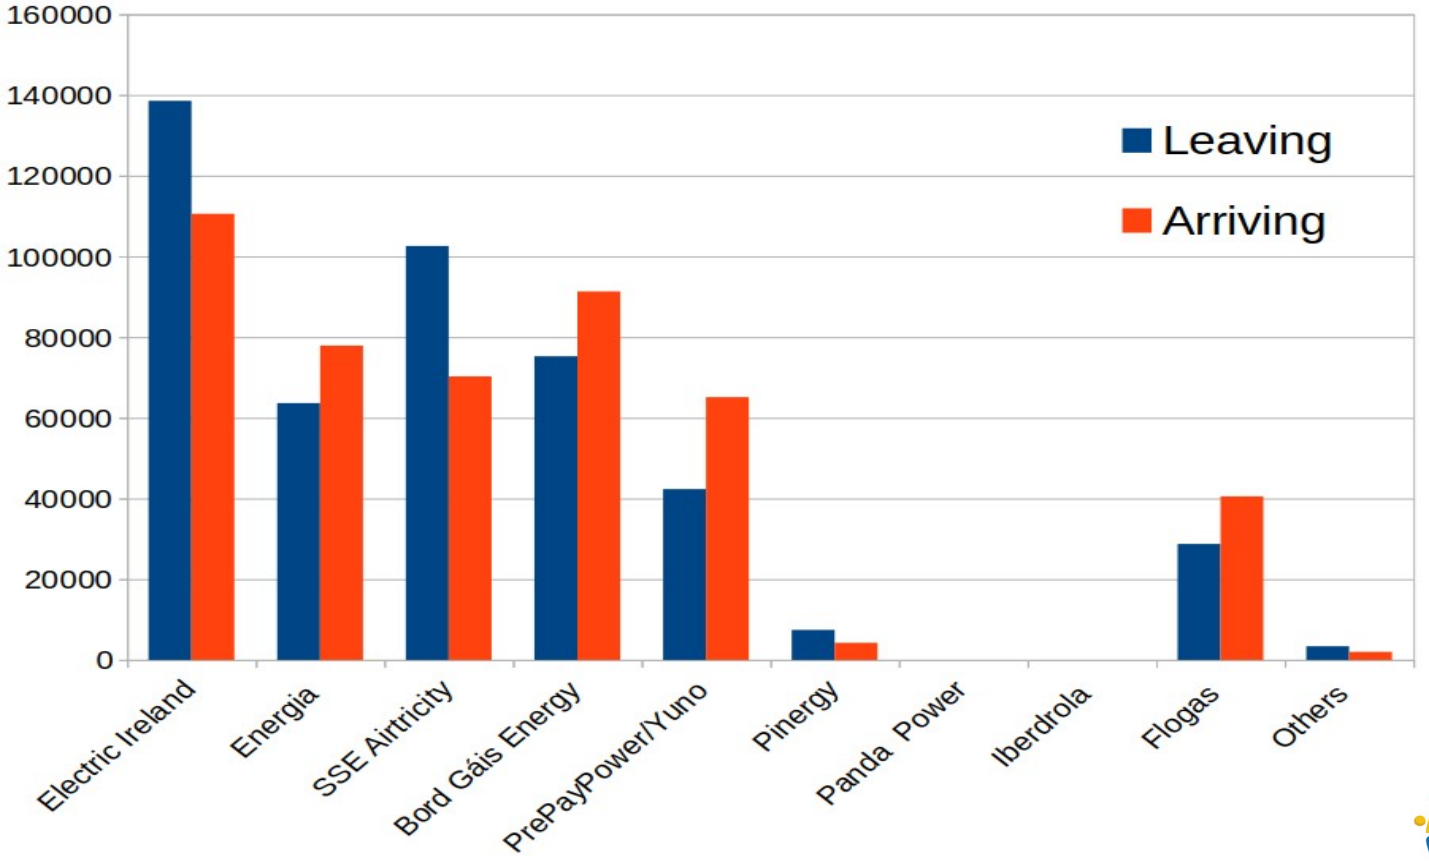

Comhlacht Forbartha Áitiúil an Chláir

Why bother switching ?

- Electricity supply companies do not reward loyalty
- Its the same electricity from every company
- The grid is managed by ESB Networks so if there is a problem (storms etc.) the supplier has no role to play
- For every 1c price reduction, you'll save €50 / year

CLARE ENERGY AGENCY

Everyone else is doing it (in 2025)

CLARE ENERGY AGENCY

Understand your own usage

- How much electricity (kWh) do you use each year ?
- What kind of price plan are you on ?
  - 24 hour
  - Day and Night
  - “Smart” tariffs

CLARE ENERGY AGENCY

Understand your own bills

CLARE ENERGY AGENCY

Choose a new electricity supplier 01

- Simplest way first !

- Use one of the approved switch websites that let you compare AND switch

www.bonkers.ie	www.switcher.ie
www.powertoswitch.ie	www.energyswitch.ie

- You need three things
  1) MPRN (11 digit number from your ESB bill)
  2) Current Meter Reading (see final slide)
  3) IBAN number for your bank account

CLARE ENERGY AGENCY

Choose a new electricity supplier 02

- The more complex but more exact way
- Signup with ESB Networks
    - need e-mail and mobile number
- Download the data file that shows your exact usage
- Upload the data file to any of the following websites
    - www.kilowatt.ie
    - www.energypal.ie
- They give exact calculations of your usage & potent

Make the switch !

- We will help out on our laptops

Download the presentation

CLARE ENERGY AGENCY

Reading your Meter

- Take the reading that has “kWh” at the end : In this example it is 21750
- If something else is showing on screen then push this button repeatedly until you see the “kWh” figure
- Watch the **ESB Networks video**
